

Heavy Duty Self Supported Glazing Bar

Can be glazed with 16mm, 25mm, 32mm and 35mm Polycarbonate Sheet or Glass

$$\frac{5 \times W \times L^3}{384 \times E \times I}$$

Where W = Load
E = Modulus Of Profile in N/mm²
I = Inertia in mm⁴

Deflection calculation of Heavy Duty Self Supporting Glazing Bar
Fail point beyond a deflection of 35mm under maximum

Heavy Duty Self Supported Bar

Available in 2.5m, 3m, 3.5m, 4m, 5m and 6m Lengths

Colours - White, Brown, Anthracite Grey, Black, Rosewood and Light Oak
